Client Testimonial

I downloaded copies of several versions of different software to input 1500 forms and was going to try all of them out before I purchased one. I opened the EZClaim trial version first and after reading the instructions and inputting only one form I decided that it would be ridiculous to waste any time looking at any of the others. The EZClaim HCFA-helper is exactly that, Very Easy. I especially appreciate the 'add charge' feature which automatically copies in all of the

Our Client

EZClaim

What We Did

- Website Development
- Custom Web Software
- Search Engine Optimization

Our Opportunity

Now wasn't that EZ?! EZClaim, a Medical Billing Software Company, came to TM wanting to revamp their online presence, make navigation easier for customers and to improve the overall search engine visibility of their website. We wanted their name to match the users experience.

Our Solution

Working with a partner agency, EZClaim's image was completely overhauled resulting in a new, fresh, professional looking brand. A complete new site design was completed and coded to W3C standards and optimized for search engines. All of their current rankings were maintained and new rankings were instantly increased for relative keywords in search engines. Several of the website's usability issues were addressed as well, resulting in happy customers that can now move around the website with ease.
